Centre Requirements

Centres must be approved to offer this qualification. If your centre is not approved please complete and submit form **ProQual Additional Qualification Approval Application**.

Staff

Staff delivering this qualification must be appropriately qualified and occupationally competent.

Assessors/Internal Quality Assurance

For each competence-based unit centres must be able to provide at least one assessor and one internal quality assurance verifier who are suitably qualified for the specific occupational area. Assessors and internal quality assurance verifiers for competence-based units or qualifications will normally need to hold appropriate assessor or verifier qualifications, such as:

- Award in Assessing Competence in the Work Environment
- Award in Assessing Vocationally Related Achievement
- Certificate in Assessing Vocational Achievement
- Award in the Internal Quality Assurance of Assessment Processes and Practices
- Certificate in Leading the Internal Quality Assurance of Assessment Processes and Practices

Support for Candidates

Materials produced by centres to support candidates should:

- enable them to track their achievements as they progress through the learning outcomes and assessment criteria;
- provide information on where ProQual's policies and procedures can be viewed;
- provide a means of enabling Internal and External Quality Assurance staff to authenticate evidence

Assessment

Candidates must demonstrate the level of knowledge described in the units. Assessment is the process of measuring a candidate's knowledge and understanding against the standards set in the qualification.

Each candidate is required to produce evidence which demonstrates their achievement of all of the learning outcomes and assessment criteria for each unit.

Evidence can include:

- assignments/projects/reports
- worksheets
- portfolio of evidence
- record of oral and/or written questioning
- candidate test papers

Learning outcomes set out what a candidate is expected to know, understand or be able to do.

Assessment criteria specify the standard a candidate must meet to show the learning outcome has been achieved.

Learning outcomes and assessment criteria for this qualification can be found from page 10.

Internal Quality Assurance

An internal quality assurance verifier confirms that assessment decisions made in centres are made by competent and qualified assessors, that they are the result of sound and fair assessment practice and that they are recorded accurately and appropriately.

Adjustments to Assessment

Adjustments to standard assessment arrangements are made on the individual needs of candidates. ProQual's Reasonable Adjustments Policy and Special Consideration Policy sets out the steps to follow when implementing reasonable adjustments and special considerations and the service that ProQual provides for some of these arrangements.

Centres should contact ProQual for further information or queries about the contents of the policy.

Results Enquiries and Appeals

All enquiries relating to assessment or other decisions should be dealt with by centres, with reference to ProQual's Enquiries and Appeals Procedures.

Certification

Candidates who achieve the required credits for this qualification will be awarded:

- A certificate listing the unit achieved, and
- A certificate giving the full qualification title -

ProQual Level 4 Diploma in Advanced Healthcare and Social Care Support Skills

Claiming certificates

Centres may claim certificates for candidates who have been registered with ProQual and who have successfully achieved the required number of credits for the qualification. All certificates will be issued to the centre for successful candidates.

Replacement certificates

If a replacement certificate is required a request must be made to ProQual in writing. Replacement certificates are labelled as such and are only provided when the claim has been authenticated. Refer to the Fee Schedule for details of charges for replacement certificates.

		3.2	Identify national strategies that would apply to improving individuals' health and wellbeing
4	Understand the physiological state associated with blood pressure	4.1	Explain the physiology of blood pressure
		4.2	Explain how homeostasis maintains blood pressure
		4.3	Analyse individual's clinical conditions that affect blood pressure
		4.4	Propose actions to correct abnormal blood pressure
5	Understand the physiological state associated with a pulse	5.1	Explain the physiology of a pulse
		5.2	Explain how homeostasis maintains pulse rate
		5.3	Analyse individual's clinical conditions that affect pulse and rhythms

Learning Outcome - The learner will:		Assessment Criterion - The learner can:	
		5.4	Propose actions to correct abnormal pulse rates and rhythms
6	Understand the physiological state associated with temperature	6.1	Explain homeostatic principles of temperature
		6.2	Explain normal ranges of temperature
		6.3	Analyse individual's clinical conditions that affect body temperature
		6.4	Explain how changes in temperature could affect other aspects of physiological measurements
7	Understand the physiological state associated with respiration	7.1	Explain the physiology of respiration
		7.2	Explain how homeostasis maintains respiration
		7.3	Analyse individual's clinical conditions that affect respiration
		7.4	Propose actions to correct abnormal respiration
8	Understand the physiological state associated with oxygen saturation levels	8.1	Explain the physiology of oxygen saturation
		8.2	Explain homeostatic principles of oxygen saturation
		8.3	Analyse individual's clinical conditions that affect oxygen saturation levels
		8.4	Analyse external factors that affect oxygen saturation levels
		8.5	Propose actions to correct abnormal oxygen saturation levels
9	Be able to recognise the deteriorating patient	9.1	Explain the signs and symptoms that indicate patients/clients are deteriorating

Learning Outcome - The learner will:	Assessment Criterion - The learner can:
	9.2 Discuss the ABCDE approach and actions taken to assess each step
	9.3 Propose actions to escalate care
10 Be able to support others to undertake physiological measurements	10.1 Deliver training to others to enable them to undertake appropriate physiological measurements
	10.2 Assess others learning and application of skill within the work setting in line with local policy

Unit F/504/8617

Understand the principles, theories and concepts related to leading and developing a work team in a healthcare environment

Learning Outcome - The learner will:		Assessment Criterion - The learner can:	
1	Understand how leadership and management impact on effective team performance	1.1	Explain theories about the nature and role of management
